Answer: A

4.DRAG DROP

Match the client type on the left with its key benefit on the right by dragging the client type into the correct box.

<u>Client Type:</u>	<u>Key Benefit:</u>
Zero Client	A client with negligible processing capability that typically provides rich functionality independent of the central server.
Thick Client	A simple computer with a light-weight OS that has been optimized for establishing a remote connection with a server-based computing environment.
Thin Client	A server-based computing model in which the end user's computing device has no local storage and retains OS in flash memory.

Answer:

<u>Client Type:</u>	<u>Key Benefit:</u>
Zero Client	Thick Client A client with negligible processing capability that typically provides rich functionality independent of the central server.
Thick Client	Thin Client A simple computer with a light-weight OS that has been optimized for establishing a remote connection with a server-based computing environment.
Thin Client	Zero Client A server-based computing model in which the end user's computing device has no local storage and retains OS in flash memory.

Explanation:

A client with negligible processing capability that typically provides rich functionality independent of the central server. Thick Client

A single computer with a light-weight OS that has been optimized for establishing a remote connection with a server based computing environment. Thin Client

5.Which Feature of Workspace ONE Content Delivery Network reduces bandwidth requirements, server load, and improves the client response times?

- A. peer-to-peer
- B. server caches
- C. reverse proxies
- D. web caches

Answer: C
