Title : OEM Reseller

Version : DEMO

How to answer Drag and Drop?

The Drag and Drop subject will appear "Drag and Drop", which is after the

Question: 5 [DRAG And DROP]
 You are designing a database two tables named Classes and Enrollment. The specifications are:
 · Classes will store brochures must be structured in paths.
 · Enrollment will store Performance must be enhanced for enrollments. You need to identify the specifications of each table. To answer, drag the technologies in the answer area.
 1. FileStream
 2. FileTable
 3. Partitioned tables
 4. Partitioned views
 Answer: B3 AND A2

number.

Technologies	Answer Area
FileStream	Technology Classes
FileTable	Technology Enrollment
Partitioned tables	
Partitioned views	

The real question is as follows:

How can we mark them?

A, B, C and D represent the boxes on the right. These boxes from top to bottom, in turn, are A, B, C and D.

1, 2, 3 and 4 represent the boxes on the left. These boxes from top to bottom, in turn, are 1, 2, 3 and 4.

Technologies	Answer Area
FileStream 1	Technology A Classes
FileTable 2	Technology B Enrollment
Partitioned tables 3	
Partitioned views 4	

Answer:

Technologies	Answer Area
FileStream	FileTable Classes
	Partitioned tables Enrollment
Partitioned views	

We marked them as follows:

Technologies	Answer Area	
FileStream	FileTable A2	Classes
	Partitioned tables B3	Enrollment
Partitioned views		

So the answer of choice question is: A2 AND B3

1.A customer has an Active Directory environment that contains 30 client computers. All users share the client computers.Some of the users require the user interface and Windows Help and Support in English.Other users require the user interface and Windows Help and Support in German. The customer decides to use Windows 7 on all of the client computers. You need to recommend a solution that meets the customer's language requirements.

The solution must minimize software costs.

What should you recommend doing on all of the client computers?

- A.Perform a dual-boot installation of the English version of Windows 7 Professional and the German version of Windows 7 Professional.
- B.Install the English version of Windows 7 Ultimate, and then install the German language pack.
- C.Install the English version of Windows 7 Professional, and then install the German language pack.
- D.Perform a dual-boot installation of the English version of Windows 7 Ultimate and the German version of Windows 7 Ultimate.

Answer: B

2.A customer has 60 client computers that run Windows 7 Professional.

The customer expects to add more than 30 client computers that run Windows 7 Professional to the network during the next 12 months.

The customer currently has a Linux server.

The customer wants to change the Linux server for a Windows server.The customer also plans to deploy Microsoft SQL Server.

You need to recommend which software the customer must purchase.The solution must minimize costs. What should you recommend? (Choose all that apply.)

- A.SQL Server 2008 R2 Standard
- B.Windows Server 2008 R2 Standard
- C.Windows Small Business Server 2011 Essentials (Windows SBS 2011 Essentials)
- D.Windows Small Business Server 2011 Premium Add-On (Windows SBS 2011 Premium Add-On)
- E.Windows Small Business Server 2011 Standard (Windows SBS 2011 Standard)

Answer: AB

3.A customer has 100 notebook computers.Each computer has an x86 processor.

The customer plans to upgrade the computers to Windows 7.

You need to recommend an operating system for the computers. The solution must ensure that users can secure their local data by using Windows BitLocker Drive Encryption (BitLocker) and the solution must support volume activation.

Which operating system should you recommend?

- A. a 64-bit version of Windows 7 Professional
- B. a 32-bit version of Windows 7 Professional
- C. a 64-bit version of Windows 7 Ultimate
- D. a 32-bit version of Windows 7 Ultimate
- E. a 64-bit version of Windows 7 Home Premium
- F. a 64-bit version of Windows 7 Enterprise
- G. a 32-bit version of Windows 7 Enterprise
- H. a 32-bit version of Windows 7 Home Premium

Answer: G

4. Your company sells a customer two desktop computers. Both of the computers have Windows 7 Professional preinstalled. One of the computers also has Microsoft Office Home and Business 2010 preinstalled.

The customer contacts you 120 days after the sale requesting to install Office Home and Business 2010 on the computer that was shipped without Office 2010 installed.

You need to provide a solution to license Office 2010 on the computer. The solution must minimize costs. What should you do?

- A. Instruct the customer to use the product key that came with the other computer.
- B. Instruct the customer to contact Microsoft for an additional Office Home and Business 2010 product key.
- C. Sell the customer a Full Packaged Product (FPP) license of Office Home and Business 2010.
- D. Sell the customer an OEM license of Office Home and Business 2010.

Answer: C

5. A customer has eight new client computers that do not have operating systems installed.

The customer plans to purchase Windows 7 and install Windows 7 on the client computers.

You need to recommend which type of Windows 7 license the customer should purchase. The solution must minimize licensing costs.

Which type of license should you recommend?

- A. OEM
- B. Full Packaged Product (FPP)
- C. Open Value
- D. Open Business with Microsoft Software Assurance

Answer: B

6. A customer has a network. The network has 50 users.

The customer plans to deploy two servers that will be configured as shown in the following table.

Server name

Server configuration

Number of users

Server1

.Windows Small Business Server 2011 Standard (Windows SBS 2011 Standard)

.Microsoft Exchange Server

.Active Directory Rights Management Services (AD RMS)

.Internet Information Services (IIS)

.DHCP

.DNS

Fifty users access Microsoft Exchange Server, 30 of whom will also access Active Directory Rights Management Services (AD RMS)

Server2

.Windows Server 2008 R2 Standard

.Microsoft SQL Server 2008 R2 for Small Business

Ten users access a Microsoft SQL Server application

You need to identify the minimum number of Windows SBS 2011 Client Access Licenses (CALs) that the customer requires.

How many CALs should you identify?

A.70

B.30

C.50

D.80

E.20

Answer: C

7.A customer purchases a new portable computer that has an OEM version of Windows 7 Professional installed.

The customer wants to install Microsoft Word 2010, Microsoft PowerPoint 2010, and Microsoft OneNote 2010 on the new computer.The customer also wants to install these products on a desktop computer at home.The customer wants to minimize costs.

What should you recommend that the customer use?

A.a Product Key Card of Microsoft Office Professional 2010

B.a Product Key Card of Microsoft Office Home and Business 2010

C.a Full Packaged Product (FPP) copy of Microsoft Office Home and Student 2010

D.a Full Packaged Product (FPP) copy of Microsoft Office Home and Business 2010

Answer: C

8.A customer plans to install Windows 7 on 20 portable computers.

The customer wants to be able to use DirectAccess.

You need to recommend the appropriate edition of Windows 7.The solution must minimize costs.

Which edition of Windows 7 should you recommend?

A.Home Basic

B.Home Premium

C. Professional

D. Ultimate

Answer: D

9. You have a customer that is a government-funded school.

The customer plans to deploy the following software to 100 client computers:

. Windows 7 Professional

. Microsoft Core CAL Suite

. Microsoft Office Professional Plus 2010

The customer wants to upgrade to the latest Windows software as it is released. The customer wants to pay annually, but maintain minimum costs. The customer also wants to base all costs on the number of full-time staff employed at the school.

You need to recommend a licensing program for the customer. The solution must minimize upfront costs. Which licensing program should you recommend?

A. Open Value Subscription for Government

B. Open License for Academic

C. Open License for Government

D. Enrollment for Education Solutions (EES)

Answer: D

10. You work for an OEM reseller named Contoso, Ltd. Contoso only has offices in the United States.

You have a customer that has offices in the United States and the United Kingdom.

The customer purchases 30 client computers from Contoso. The client computers have Windows 7 installed.

The customer also purchases 10 client computers from an OEM reseller named Litware, Inc. The client computers have Windows 7 installed. Litware only has offices in the United Kingdom.

The customer purchased all of the client computers during the past week.

The customer wants to purchase OEM licenses of Microsoft Office 2010 for all of the new client computers.

What advice should you give the customer?

A. The customer can purchase 30 OEM licenses of Office 2010 from Contoso and 10 OEM licenses of Office 2010 from Litware.

B. The customer can purchase Office 2010 OEM licenses for all of the 40 client computers from Contoso.

C. If an OEM license of Office 2010 was not preinstalled on the client computers, it is illegal to install it.

D. Office 2010 is unavailable under OEM licensing.

Answer: A
